DETAILED ACTION

Claims 1 – 31 have been examined.

Oath/Declaration

1. It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56. Only a portion(s) of 37 CFR 1.56 is mentioned. It is possible the form was state of practice and provided by the USPTO web site at the time of filing. A statement reflecting the entire section of 1.56 is acknowledged to be the scope of the Declaration is requested.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1 – 15 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claimed subject matter is not statutory because it is not tangibly embodied on a computer readable medium. The Examiner has provided on way to overcome this rejection.

- b) the server further configured to generate distribution code to enable the distribution of the object; and,
- c) the server further configured to generate integration code specific to the middleware onto which the object is integrated.

Allowable Subject Matter

4. Claims 16 – 31 are allowed.

The combination of a distributed method broker where the “At least one method of a non-distributed object” closest prior art employs proxies to for remote method invocation.
